The fund is risk rated using a 7 point scale based on 5 year volatility - the approach is broadly based on ESMA's (European Securities and Markets Authority) guidelines on the methodology used to calculate a risk and reward indicator.

**This fund is rated as being 'Medium to high risk' using our risk rating scale.**

There is always a risk of getting back less money than invested regardless of a fund's risk rating and you should always seek independent advice that any fund is suitable for you.

### FUND SUSPENSION

We reserve the right to defer acting upon your request as sometimes the underlying assets are not always readily saleable. The maximum deferred period for all funds apart from Property is one month. Property funds have no maximum period but will only be suspended if the underlying asset is suspended and we have no other options available to us.

### FUND OBJECTIVE

To provide capital growth in the long term by investing in a combination of asset classes including equities, fixed income, property and cash with the potential for high levels of price fluctuations.

The active asset allocation through time is informed by forward-looking market views and a risk management framework which aims to de-risk exposures at times of market stress to mitigate the impact of market downturns. Derivatives are used in the portfolio for investment purposes and risk management, particularly in periods of enhanced market stress.
