

SL Ninety One Global Multi-Asset Sustainable Growth Pension Fund

31 March 2024

This document is intended for use by individuals who are familiar with investment terminology. Please contact your financial adviser if you need an explanation of the terms used.

The SL Ninety One Global Multi-Asset Sustainable Growth Pension Fund invests primarily in the Ninety One Global Multi-Asset Sustainable Growth Fund. The aim of the Ninety One Global Multi-Asset Sustainable Growth Fund is summarised below.

The Fund aims to provide capital growth (to grow the value of your investment) and income over at least 5 years. The Fund focuses on investing in companies and countries believed by the Investment Manager to have policies, operations and/or business models that aim to manage their harmful effects on society and the environment, or whose products and/or services seek to benefit society and the environment.

The value of any investment can fall as well as rise and is not guaranteed – you may get back less than you pay in.

Where a fund holds overseas assets the Sterling value of these assets may rise and fall as a result of exchange rate fluctuations.

Definition(s): Volatility Rating - The volatility rating of a fund indicates how much the fund price might move compared to other funds. The higher the volatility rating, the less stable the fund price is likely to be. You can use this to help you decide how much risk you're comfortable taking with your investments. Volatility ratings are calculated on a scale of 0-7.

Money Market - may include bank and building society deposits, other money market instruments such as Certificates of Deposits (CDs), Floating Rate Notes (FRNs) including Asset Backed Securities (ABSs), Money Market Funds and allowances for tax, dividends and interest due if appropriate.
