Life Fund

SWIS International Growth 2 Life

Fund Aim

The fund invests through the HBOS Investment Fund Managers (HIFML) International Growth OEIC Fund. The OEIC Fund aim is: To provide capital growth by investing in a diversified global portfolio of company shares. The benchmark for the Fund is the MSCI All Country World Index (the "Index"). The Fund Manager seeks to outperform the Index by 1.25% on a rolling 3 year basis, before deduction of fees. At least 80% of the Fund will be invested in shares of companies which are part of the Index. The Fund may also invest in other funds, including those managed by HIFML and its associates. HIFML instructs the Fund Manager on the proportion to be allocated to companies in the Index. At least 90% will be invested in companies in developed markets, and not more than 10% in companies in emerging markets. The allocation may differ through market movements or Fund Manager discretion. The extent to which the Fund's investment in various sectors may differ to the Index is limited. The limits help to provide a balance between the spread of assets within the Fund and risk management. They also provide a balance between the amount the Fund can vary from the Index and providing the Fund Manager with flexibility to seek to outperform the Index. Because the Fund may only take limited positions away from the Index the difference between the Fund's performance and Index performance is likely to be smaller than that of funds with greater flexibility.

Past Performance

International Growth 2 Life

MSCI ACWI + 1.25% IXBM - BRP10

Past performance is not a guide to future performance. Investment value and income from it may fall as well as rise, as a result of market and currency movements. You may not get back the amount originally invested.

The figures in the performance table[s] illustrate the past performance of the Fund and its benchmark over time. Prior to 14.06.21 the Fund's benchmark was FTSE Europe ex-UK Index. From 14.06.21 to 21.10.24 we illustrated the performance of the Fund against the LF Europe excluding UK Equities sector. From 21.10.24 the Fund's benchmark was MSCI ACWI Index + 1.25%. The figures in the performance table account for changes in the Fund and its benchmark.

Discrete Performance

	31/12/2023 - 31/12/2024	31/12/2022 - 31/12/2023	31/12/2021 - 31/12/2022	31/12/2020 - 31/12/2021	31/12/2019 - 31/12/2020
SWIS International Growth 2 Life	7.3%	13.4%	-5.7%	13.7%	4.8%

Performance figures are in £ Sterling on a single pricing basis, with income (where applicable) reinvested net of UK tax and net of total annual fund charges. These figures do not include any initial charge or other product charge(s) that may be applicable.

Quarterly Fund Manager Review

Global equities achieved a mixed performance in the final quarter of 2024. US shares advanced following Donald's Trump's victory in the Presidential election, but other regional markets came under pressure amid worries over trade tariffs. In the US, shares made gains in Q4 to round out a strong year for the S&P 500 index. Equities were supported by not only Trump's victory in the presidential election, but also the accompanying "Red Sweep" which saw the Republicans take control of Congress. Shares were buoyed by expectations that Trump's policy programme will lift growth, lower taxes and cut regulation. Eurozone shares declined in Q4 amid fears of recession. There was political instability in France and Germany as well as worries over trade wars after Donald Trump won the US election. UK equities also fell over the quarter. A number of domestically focussed sectors declined amid a rise in long-term bond yields and growing concerns about the UK macro-economic outlook. While long-term bond yields rose in line with global trends as inflation expectations were revised upwards, their rise in the UK was exacerbated by concerns around the new UK government's fiscal policies unveiled in its Autumn Budget. The Japanese equity market experienced gains during the fourth quarter, with the TOPIX Total Return increasing by 5.4% in yen terms. Developments in the US and their impact on financial markets, particularly the currency market, drove the Japanese equity market. Emerging market (EM) equities and Asia ex Japan equities were both weaker in Q4 with both the MSCI EM index and MSCI AC Asia ex Japan Index ending the quarter lower amid investor concerns about the impact of Trump's proposed tariffs, particularly on China. Brazilian shares were the weakest among EM as the local currency fell amid rising concerns over the country's fiscal outlook. South Korea posted losses on the back of political instability as first the president, and then the acting president, were impeached during December. South Africa and India both ended the quarter lower in US dollar terms, underperforming the broader EM index.
