

**Fund Aim**

To provide a return based on the combination of capital growth and income, by investing in UK commercial scale properties. The Fund is actively managed by the Fund Manager who chooses investments with the aim of outperforming the MSCI UK Quarterly Property Index (the "Index") by 0.5% per annum on a rolling 3 year basis, before deduction of fees. At least 70% of the Fund will invest directly in commercial scale properties in the UK market, aiming to achieve capital growth via property development and market appreciation, in addition to earning income via leasing of its property assets, either directly or indirectly through property shares or other funds (including those managed by SWUTM and its associates). The Fund will invest in a diversified range of commercial scale property including: office buildings, shopping centres, retail units, industrial units, warehouses, land and other property types of suitable commercial scale. The Fund may also invest overseas. Due to the nature of property assets the Fund may hold a portion of its assets in cash, and cash-like investments, and/or exchange traded property-related shares to assist in meeting the liquidity requirements of the Fund. The MSCI UK Quarterly Property Index measures total returns of directly held standing property investments from one valuation to the next. Derivatives and stock lending may be used for the efficient portfolio management purposes.

**'ESG Metrics'**

This fund invests in assets that may at times be hard to sell. This means that there may be occasions when you experience a delay or receive less than you might otherwise expect when selling your investment. Please see your plan's terms and conditions ("Policy Provisions") for further information. The following property breakdown areas are on a 'Direct Property' basis only: Top 5 Properties, Top 5 Tenants and Region

**Information Statement**

The fund invests via the Scottish Widows Unit Trust Managers Limited (SWUTM) Scottish Widows Pooled Property ACS Fund 1. A shortened version of the ACS Fund aim is detailed under the heading Fund Aim. Clerical Medical produce Environmental, Social and Governance themed fund metrics. Selected data can be found using the ESG metric link.

Performance figures are in £ Sterling on a single pricing basis, with income (where applicable) reinvested net of UK tax and net of total annual fund charges. These figures do not include any initial charge or other product charge(s) that may be applicable.

## Quarterly Fund Manager Review

The UK property market has undergone a significant repricing due to the new higher interest rate environment, inflation, geopolitical changes, and market fluctuations affecting investor allocations. Despite a slight softening in demand, occupational markets remain resilient due to tight supply conditions caused by high construction and debt financing costs, and a shortage of sustainability-compliant spaces. This situation is likely to spur growth in the medium term. To meet evolving regulatory and tenant demands, it is crucial to prioritize sustainability and impact considerations, which will necessitate increased capital expenditure. We believe the real estate sector is in the early stages of a broader cyclical buying opportunity due to the extent and uneven pattern of the repricing so far. We advise investors to be patient as opportunities emerge over time across capital structures, property types, and regions. Immediate opportunities can be found in markets that have experienced the fastest repricing, such as the UK and Nordic region, followed by the US and other Continental European markets. In the Asia Pacific region, cyclical opportunities are focused on markets that align with China's recovery or offer alternatives in the nearshoring/friendshoring of supply chains. Industrial and logistics assets have significantly repriced but remain supported by strong structural fundamentals. We favour operational property types that have strong demand-side tailwinds and can deliver direct or indirectly inflation-linked income. These include self-storage, hotels, senior housing, select residential segments, and healthcare-related real estate.
