Performance figures are in £ Sterling on a single pricing basis, with income (where applicable) reinvested net of UK tax and net of total annual fund charges. These figures do not include any initial charge or other product charge(s) that may be applicable.

Quarterly Fund Manager Review

Over the month, gilt yields across the curve rose with UK 2-year yields rising 2bps, UK 5-year yields rising 11 bps, UK 10-year yields rising 19 bps, and UK 30-year yields also rising 19 bps. Elsewhere, US Treasury bond yields fell across the front end of the curve with a more pronounced decline compared to the rest of the curve. The 10-year point remained broadly unchanged, while the US 30-year yields rose by 8 bps. European government bond yields rose across the board. Most notably, the German 30-year yield rose by 39 bps. Yields were driven by continued geopolitical uncertainty around tariff impacts. In Europe, German defense spending announcements were the key yield drivers. Similarity in the UK, the focus was also on the fiscal spending and the Spring Statement from the Labour Government.
