## Monthly Performance Scenarios

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies and are not an exact indicator.

We are required by regulation to provide you with the performance scenarios in the table below. The calculation of these is prescribed by regulation and is derived from past performance. **We do not believe that this is an appropriate way to estimate future returns and for this reason the table below should not be used to make such an estimate.**

The table below includes all the costs of the product itself and includes the cost of your adviser. Please refer to the funds own Key Fund Information Document for more information, available from our website at [www.sjp.co.uk/kids](http://www.sjp.co.uk/kids).
