

AMP Global Listed Infrastructure Market Index Fund - Hedged

Wholesale Investor (Class O)
Monthly Update for 31 March 2026

Description

The Investment Option invests in companies relating to core infrastructure businesses in developed markets. Only companies with at least 65% of their revenue attributable to infrastructure activities are included.

Investment Objective

The Fund aims to track the return of the FTSE Developed Core Infrastructure 50/50 100% Hedged to Australian dollars Net Tax Index before fees and taxes. The Fund may be suitable for investors seeking to invest in a diversified portfolio of infrastructure securities with an index approach and hedged to Australian dollars. The Fund aims to pay distributions quarterly. You should be aware that although the Fund aims to pay distributions, the amount of each distribution may vary, or no distribution may be payable in a distribution period.

Target Investor

This product is intended for a consumer who is seeking capital growth and regular income. It has a very high risk/return profile and is intended for use up to a core component of an investment portfolio. It is likely to be consistent with the financial situation and needs of a consumer with a minimum investment timeframe of 7 years and who is unlikely to need to withdraw their money on less than one week's notice.
