

MyNorth International Fixed Interest Index - Hedged

On-platform Class A
Monthly Update for 30 April 2026

Description

The Investment Option holds bonds issued by governments, government-related, corporate, and securitised entities from around the world and seeks to track the returns of the Bloomberg Global Aggregate Bond Index (hedged to Australian dollars) before taking into account fees expenses and tax. The Bloomberg Global Aggregate Bond Index (hedged to Australian dollars) comprises of income-generating bonds issued by governments and non-government entities from around the world. The Investment Option's currency exposure is hedged back to the Australian dollar using forward foreign exchange contracts.

Investment Objective

The Fund aims to track the returns of the Bloomberg Global Aggregate Index (hedged to Australian dollars) before fees and taxes. The Fund may be suitable for investors seeking to invest in a diversified portfolio of fixed income securities managed with an index approach and hedged to Australian dollars. The Fund aims to pay distributions half-yearly. You should be aware that although the Fund aims to pay distributions, the amount of each distribution may vary, or no distribution may be payable in a distribution period.

Target Investor

This product is intended for a consumer who is seeking capital preservation and potentially some income distributions. It has a medium to high risk/return profile and is intended for use up to a core component of an investment portfolio. It is likely to be consistent with the financial situation and needs of a consumer with a minimum investment timeframe of 5 years and who is unlikely to need to withdraw their money on less than one week's notice.
