

Monthly Update for Month Ending May 2025

### Investment objective

Aims to provide a return exceeding the RBA Cash Rate +1.5% p.a., before fees, over rolling 5-year periods. The portfolio aims to meet this investment objective by targeting a maximum expected annual volatility of 3% as measured by the standard deviation of monthly returns over rolling annual period. In a loss-making year, the portfolio aims to restrict losses to a maximum of 5% but this is not guaranteed.

<sup>1</sup> The managed portfolio performance represents total return for the periods. Returns have been calculated using the time-weighted method, they assume distributions are reinvested and are after investment management fees and indirect costs. Total and growth returns include accrued distributions, while income return includes paid distributions only. Returns do not take into account tax payable. Individual client returns may vary based on the contributions, withdrawals, and timing differences within the managed portfolio
