About the manager

NMMT's Internal Investments Team

The NMMT's Internal Investments Team has substantial experience in fund manager research and portfolio management. In constructing and managing the portfolios, the team believe that equity markets are inefficient and that shares often trade at significant premiums or discounts to their fair value. They aim to capture these anomalies through a disciplined, research focused approach can generate attractive returns over time.

¹ The managed portfolio performance represents total return for the periods. Returns have been calculated using the time-weighted method, they assume distributions are reinvested and are after investment management fees and indirect costs. Total and growth returns include accrued distributions, while income return includes paid distributions only. Returns do not take into account tax payable. Individual client returns may vary based on the contributions, withdrawals, and timing differences within the managed portfolio

² The benchmark is calculated based on the average performance from peers in the same multi sector category, as compiled and sourced from Morningstar Direct™ in October 2024.
