About the manager

Mercer

Mercer is a multi-national investment manager, using specialised investment tools and strategies to provide robust and diversified portfolios for their clients. The team manages approximately \$200 billion worldwide, with approximately \$33 billion invested in Australia and New Zealand. With Australian operations commencing in 1972, Mercer's primary driver in portfolio construction is risk management - spreading investments across investment types and different risks to mitigate periods of market volatility and protecting investments from loss. Using a multi-dimensional framework, Mercer uses active management in asset classes offering the greatest opportunity for skilled investment managers to add value while using passive management to manage risk or constructing a portfolio to deliver close to market returns.

¹ The managed portfolio performance represents total return for the periods. Returns have been calculated using the time-weighted method, they assume distributions are reinvested and are after investment management fees and indirect costs. Total and growth returns include accrued distributions, while income return includes paid distributions only. Returns do not take into account tax payable. Individual client returns may vary based on the contributions, withdrawals, and timing differences within the managed portfolio
