

**FUND AIM**

The Fund seeks to provide growth (through increases in investment value and income) of 1% per year more than the Consumer Price Index over a rolling five-year period, after fees. It is a global multi-asset portfolio which avoids investment in companies which are materially engaged in certain sectors, including tobacco, alcohol, armaments, gambling and adult entertainment.

Performance is provided net of fees. **Past performance is not a guide to future returns and may not be repeated.** Performance is calculated in GBP on the basis of net asset values (NAV) and dividends reinvested.

Performance prior to the 23rd February 2018 is for the Alpha Common Investment Fund for Income & Reserves which launched on 3rd August 2005. Source: Sarasin & Partners LLP and FE FundInfo. Annualised Growth Rate (AGR) is the increase or decrease in value of an investment, expressed as a percentage per year. The index data referenced is the property of third party providers and has been licensed for use by us. Our third party providers accept no liability in connection with its use. See our website for a full copy of our index disclaimers: <https://sarasinandpartners.com/important-information>. Accumulation share class dividends are reinvested back into the fund and income share class dividends are paid out to investors. The Fund Dividend Yield reflects distributions paid or declared over the past 12 months as a percentage of the share price as at the latest Ex-Dividend (XD) date.

## Risk Profile

**Lower risk** Potentially lower reward **Higher risk** Potentially higher reward

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and return, calculated using the volatility of monthly returns over five years. As it is based upon how the Fund has performed in the past, you should note that the Fund may well perform differently in the future. The risk category shown is not guaranteed and may shift over time. The higher the rank the greater the potential reward but the greater the risk of losing money. The Fund is ranked at 4 reflecting observed historical returns. The fund is in this category because it has shown moderate levels of volatility historically. The following risks may not be fully captured by the Indicator:

**Derivatives risk:** Derivatives are financial instruments whose value is linked to the expected future price movements of an underlying asset. Derivatives such as futures, forward contracts, options, and swaps may be used to seek to manage risk within the fund, reduce investment costs and generate additional income. However, these strategies may not be successful and could lead to losses greater than the cost of the derivative.

**Operational risk:** Operational risks arising from failures or delays in processes and systems, or the failure of a third-party provider may affect the value of your investments. If compensation is required to due failures, payments may be delayed.

**Counterparty and settlement risk:** The fund could lose money if a counterparty with which it transacts with becomes unwilling or unable to repay money owed to the fund.

**Bond risk:** In stressed conditions bonds may become harder to sell in a timely manner, resulting in unpredictable changes in the value of your holdings.

**Charges deducted from capital:** The fund has charges deducted from capital, which may reduce the potential for growth.

**Alternatives risk:** The fund may invest in alternative assets that are difficult to sell quickly, challenging to value, and subject to higher fees. These assets may also contribute to greater price volatility compared to traditional assets such as equities, fixed income and cash. Such conditions could lead to unpredictable changes in the value of your holdings.

**Exchange Traded Funds (ETFs) risk:** ETFs are subject to market fluctuations and the risks of their underlying investments. They are also subject to management fees and other expenses.

Further details of the risks that apply to the fund can be found in the fund's Prospectus.
