

WESLEYAN RISK AVERSE PENSION FUND (SERIES 2)

31 March 2025

FUND OBJECTIVE

The Wesleyan Risk Averse Fund aims to provide a short term home for your investment when you consider some or all of all money should be held in non-share linked investments. The fund seeks to achieve a high level of security by investing in bank deposits and other money market instruments. The value of capital may be reduced when interest rates are low, as it is possible for fund management charges to outweigh interest returns.

FUND PERFORMANCE (AS AT 31/03/2025)

Please note that past performance is not a reliable guide to future performance and the value of your investment can go down as well as up, so you could get back less than you invested.

FUND RISK RATING

We rate this fund as Risk Averse. This means it is suitable for investors looking for their money to be invested in cash funds (rather than bank accounts) but understand the value can reduce when interest rates are low, as it is possible for fund management charges to outweigh interest returns. Over the long term, it is likely that the buying power of money will be less due to the effects of inflation.

ABOUT FUND MANAGER

Name: Marc O'Sullivan
