

WESLEYAN MODERATE RISK/REWARD GROWTH FUND (CLASS X) ACC

31 May 2025

FUND OBJECTIVE

The fund aims to provide capital growth over a period of at least five years. We measure the success of the fund as outperforming a benchmark over a rolling 5-year period. We do this by comparing the investment performance, after fees and charges, to a composite benchmark which reflects the current risk rating of the fund. This benchmark is a target for the fund. Invested capital is however at risk and there is no guarantee that the objective will be attained over this or any period.

FUND PERFORMANCE (AS AT 31/05/2025)

Please note that past performance is not a reliable guide to future performance and the value of your investment can go down as well as up, so you could get back less than you invested.

FUND RISK RATING

We rate this fund as Moderate Risk/Reward. This means that it is suitable for investors who are looking for higher returns than cash or fixed interest based investments and accept investing in higher risk assets to achieve this but in a way that limits exposure to frequent market rises and falls. When investments are cashed in, there is a risk that they may be worth less than put in. Money is mostly held in shares and property, with a lower proportion in fixed interest and cash based investments.
