

Key Information Document

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

The Lindsell Train Investment Trust plc
ISIN: GB00BNKDVV71

The Company is not regulated or authorised by the Financial Conduct Authority but is subject to the Listing Rules, the Disclosure Guidance and Transparency Rules, the Market Abuse Regulation and the Prospectus Rules as applicable to closed-ended investment companies. The Company is subject to the oversight of the Financial Conduct Authority in relation to the content and preparation of this document. Following the FCA's invitation to Boards to consider how to address a Key Information Document, which is produced in accordance with regulation, which may mislead investors, the Board advise that you refer to the Company's Factsheet, which is published monthly at www.ltit.co.uk/performance/monthly-manager-reports/.

Date of Production: 09 February 2026

What is this product?

The Company is a closed-ended investment company whose shares are listed on the London Stock Exchange and an alternative investment fund under the Alternative Investment Fund Managers Directive ("AIFMD"). The Company's shares are therefore available to the general public.

The objective of the Company is to maximise long-term total returns with a minimum objective to maintain the real purchasing power of sterling capital. In order to achieve its objective, the Company expects to invest in a concentrated portfolio of equities, unlisted equities, bonds, funds and cash and other financial investments globally with no limitations on the markets and sectors in which investment may be made, although there may be a bias towards equities and sterling assets consistent with a sterling-dominated investment objective. Performance is compared against the MSCI World Index in Sterling.

The Company also holds an investment in Lindsell Train Limited ("LTL") in order to benefit from the growth of the business of the Company's Investment Manager. Potential investors should note that the holding in LTL is an unlisted investment, and therefore illiquid in nature. In the event of falls in the stock markets, illiquid holdings may fall more than markets do, which means a correspondingly greater fall in the value of the Company's assets.

The Directors have discretion to permit borrowings up to 50% of the Company's Net Asset Value. However, the Directors have decided that it is in the Company's best interests not to use gearing.

The Company does not have a fixed life. The intended retail investors are those with a long-term (at least five years) investment horizon, the ability to bear capital losses and at least basic market knowledge and experience.

Shares in the Company are bought and sold on the LSE. The price you pay or receive, like other listed shares, is determined by supply and demand and may be at a discount or premium to the underlying net asset value of the Company. At any given time, the price you pay for a share will normally be higher than the price you could sell it.

What are the risks and what could I get in return?

The summary risk indicator (SRI) is a guide to the level of risk of the Company compared to other products. It shows how likely it is that the Company will lose money because of movements in the markets.

The SRI assumes you hold your shares in the Company for at least ten years.

It rates the potential losses from future performance at the third highest level, and poor market conditions will impact the amount you could get back. Any return you receive depends on future market performance. This product does not include any protection from future market performance so you could lose some or all of your investment. We have classified the Company as 5 out of 7, which is a medium high risk class.

The SRI only reflects the historic share price volatility of the Company's shares. It excludes other risks inherent in the Company and therefore understates the risk to investors. Please refer to the Company's Annual Report at www.ltit.co.uk which should be read to ensure a full understanding of the risks involved in investing in the Company. An investor should not make a decision to invest in the Company solely on the basis of this Key Information Document ("KID").

What are the risks and what could I get in return? (continued)

This table shows the money you could get back over the next 10 years, under different scenarios, assuming that you invest GBP10,000.

As an equity fund, one of the key factors that will impact future performance is the movement in market prices. The investment strategy adopted by the Investment Manager including the high degree of concentration of the investment portfolio, may lead to an investment performance and volatility that is materially different than the Company's Benchmark, the MSCI World Index in Sterling, thereby failing to achieve the Company's investment objective.

Other factors that may affect the return include the exposure to country, currency, industrial sector and stock-specific factors (including those relating to the sustainability of the business model of investments). Global, and regional, political and macroeconomic events such as armed conflicts, supply chain issues, or labour shortages can all be expected to lead to market volatility.

Please refer to the Company's Annual Report at www.ltit.co.uk/corporate-information/annual-interim-reports/ which should be read to ensure a fuller understanding of the factors that may affect future returns. An investor should not make a decision to invest in the Company solely on the basis of this KID.

The Unfavourable scenario illustrates the performance of the Company between 31/05/2019 to 30/01/2026. The Moderate scenario illustrates the performance of the Company between 31/07/2013 to 31/07/2023. The Favourable scenario illustrates the performance of the Company between 31/08/2011 to 31/08/2021.

Recommended holding period:		10 years		
Example Investment:		£10,000		
		If you exit after 1 year	If you exit after 5 years	If you exit after 10 years
Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress	What you might get back after costs	£2,830	£1,360	£460
	Average return each year	-71.7%	-32.9%	-26.5%
Unfavourable	What you might get back after costs	£6,250	£4,820	£4,570
	Average return each year	-37.5%	-13.6%	-7.5%
Moderate	What you might get back after costs	£9,980	£10,880	£38,030
	Average return each year	-0.2%	1.7%	14.3%
Favourable	What you might get back after costs	£19,350	£27,690	£89,380
	Average return each year	93.5%	22.6%	24.5%

The figures shown include all the costs of the Company itself, but do not include the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What happens if the Company is unable to pay out?

The Company is not required to make any payment to you in respect of your investment. If the Company was liquidated, you would be entitled to receive a distribution equal to your share of the Company's assets, after payment of all of its creditors.

As a shareholder you would not be able to make a claim to the Financial Services Compensation Scheme, or other compensation or guarantee scheme, in the event that the Company is unable to pay out. If you invest in the Company, you should be prepared to assume the risk that you could lose some or all of your investment.

What are the costs?

The table shows the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the shares and how well the Company does. The amounts shown here are illustrations based on an example investment amount of £10,000 and different possible investment periods.

	If you exit after 1 year	If you exit after 5 years	If you exit after 10 years
Total costs	£81	£424	£1,797
Annual cost impact (*)	0.8%	0.8% each year	0.8% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 15.1% before costs and 14.3% after costs.

The person selling you or advising you about the Company's shares may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

What are the costs? (continued)

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and the meaning of the different cost categories.

This table shows the impact on return per year		
One-off costs upon entry or exit		If you exit after 1 year
Entry costs	There are no direct entry costs associated with the Company.	N/A
Exit costs	There are no direct exit costs associated with the Company.	N/A
Ongoing costs taken each year		
Management fees and other administrative or operating costs	The impact of the costs that are incurred each year for running the Company and managing its investments.	£80
Transaction costs	The impact of the costs of us buying and selling underlying investments for the Company.	£0
Incidental costs taken under specific conditions		
Performance fees	Performance fee costs are incurred by the Company. You do not pay the Company nor the Portfolio Manager a performance fee.	£0

How long should I hold it and can I take money out early?

Recommended holding period: 10 years

The Company's shares have no required minimum holding period but are designed for long-term investment; you should be prepared to stay invested for at least 10 years. This period is deemed appropriate due to the long-term investment horizon taken by the Portfolio Manager. Investors can sell their shares at any time when the LSE is open, either directly or via their advisor or distributor.

How can I complain?

As a shareholder you do not have the right to complain to the Financial Ombudsman Service ("FOS") about the management of the Company. Complaints about the Company or the KID can be made via the Contact section of the Company's website, www.ltit.co.uk, by emailing info@frostrow.com or by writing to the Company at 25 Southampton Buildings, London, WC2A 1AL.

Other relevant information

The cost, performance and risk calculations included in this KID follow the methodology prescribed by EU legislation. This KID should be considered only in conjunction with the Annual Report, the Half Year Report and the Investor Disclosure Document which are available on the Company's website, www.ltit.co.uk, along with other information about the Company, including further details of the Company's principal risks.

The costs shown in the 'What are the costs?' section may differ from the Ongoing Charges Figure declared in the Company's Annual Report, factsheet and website as the methodology for calculation of costs mandated under the EU legislation also includes the costs of the Company's borrowings and the transaction costs of buying and selling investments in the portfolio.

Depending on how you buy these shares you may incur other costs, including broker commission, platform fees and Stamp Duty. The person selling you or advising you about the Company's shares will provide you with additional information about these.
