Call 01245 398950 for more information.

ISIN: GB0007392078

Date of Production 21/07/2025

## What is this product?

The Company is a closed-ended investment company whose shares are listed on the London Stock Exchange and an alternative investment fund under the Alternative Investment Fund Managers Directive. The Company's shares are therefore available to the general public.

The objective of the Company is to exceed the benchmark index over the long-term whilst managing risk. The Company invests in equities with an emphasis on smaller companies. UK smaller companies will normally constitute at least 80% of the investment portfolio. The investment portfolio will normally lie in the range of 80% to 100% of shareholders' funds and therefore gearing will normally be between – 20% and 0%. As a result of the Alternative Investment Fund Managers Regulations 2013 it has been decided that the Company will not use gearing.

The target investors are institutions and individual retail investors. There is no fixed maturity date. There is no ability for the Company to terminate shareholdings of investors in the Company unilaterally or automatically. The shares of the Company are bought and sold via markets. Typically, at any given time on any given day, the price you pay for a share will be higher than the price at which you could sell it.

## What are the risks and what could I get in return?

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you.

Due to effects of unusual market conditions, other risks could be triggered, such as: counterparty risk and liquidity risk. Please refer to the Company's Accounts for more detail.

**Be aware of currency risk.** You may choose to receive payments in a different currency, so the final return you will get may depend on the exchange rate between the two countries. This risk is not considered in the indicator shown above.

This product does not include any protection from future market performance, so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment. St. James's Place International holds ring-fenced assets that match the value of your investment. This is designed to protect your investment if St. James's Place International defaults on its obligations. There is no compensation scheme for this product.

# Investment performance information

The performance of the fund is dependent on the ability of the manager to identify appropriate investments, and the ability of those investments to perform in line with their objectives. Please see the funds own Key Information Document for more information.

## What could affect my return positively?

The return of the fund is dependent on the ability of the manager to identify appropriate investments, and the ability of those investments to perform in line with their objectives. Please see the funds own Key Information Document for more information.

## What could affect my return negatively?

The return of the fund is dependent on the ability of the manager to identify appropriate investments, and the ability of those investments to perform in line with their objectives. Please see the funds own Key Information Document for more information.

## What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs. The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early withdrawal charges. The figures assume you invest £10,000. The figures are estimates and may change in the future. The actual costs will depend on the performance of the underlying investments.

Investment £10,000			
Scenarios	If you cash in after 1 year	If you cash in after 8 years	If you cash in at 15 years
Total costs	£256	£2,167	£4,543
Impact on return (RIY) per year	2.50%	2.36%	2.35%

When you invest, you pay a product charge and, where agreed, an initial advice charge and an ongoing advice charge. Each charge is determined and disclosed separately.

The maximum product charge each year is 0.35% of your account value, reducing on a tiered basis for larger account values. The advice charges are as agreed between you and St. James's Place Wealth Management for the advice you receive via your St. James's Place Partner.

Your personalised illustration shows the specific charges that apply to your investment.

Any transaction costs and fund charges are charged to the fund daily, and are reflected in the prices of the fund. These costs include the fee paid to the fund manager and various other costs (such as audit fees, custody fees, VAT etc). These are also included in the total costs.

There is an administration fee of £100 each quarter, taken if the total amount invested is less than £250,000.

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and the meaning of the different cost categories.

**This table shows the impact on return per year of each cost category over the 15-year recommended holding period.**

One-off costs	Entry costs	0.01%	The impact of the costs you pay when entering your investment. This is the charge you'll pay if you choose to invest in shares or in funds not offered by St. James's Place.
	Exit costs	0.01%	The impact of the costs of exiting your investment.
Ongoing costs	Portfolio transaction costs	0.00%	The impact of the costs of buying and selling underlying investments for the product.
	Other ongoing costs	2.36%	The impact of the costs that we take each year for managing your investments and providing advice. This includes our charges for ongoing advice (0.8%) and our charge for the product, as well as the fund charge.
Incidental costs	Performance fees	N/A	No performance fees are applied.
	Carried interests	N/A	The impact of carried interests.

## Other relevant information

You are responsible for the investment decisions under your Bond. St. James's Place does not provide advice on external funds held within your Bond and will not be liable for any loss arising from investment decisions you ask us to implement, whether or not we agree to implement them.
