

Key Information Document

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

Investment Bond investing in the SWIS UK Equity Tracker A Life Fund

ISIN: GB0002079316

Provided by Scottish Widows Limited (www.scottishwidows.co.uk). Call 0800 592925 for more information. Authorised by the Prudential Regulation Authority and regulated by the Financial Conduct Authority and the Prudential Regulation Authority. Financial Services Register number 181655.

Date of Production 28/04/2025

What is this product?

It is an insurance-based investment contract. You can choose to invest in one or more funds we offer. Each fund is divided into units (like shares). Your bond's value is determined by the number of units it holds in each fund, and the price of those units.

The fund invests via the HBOS Investment Fund Managers Limited (HIFML) UK Equity Tracker OEIC Fund. The OEIC Fund aim is to match as closely as possible the performance of the FTSE All-Share Custom Screened Index (the "Benchmark Index"), before deduction of fees, by investing in UK shares. The Fund aims to invest in shares of all of the companies within the Benchmark Index. This is often referred to as a 'full replication' approach. Where HIFML believes it can provide an advantage to the Fund in managing costs, to achieve a more efficient way of tracking the Benchmark Index, or where there are exceptional market circumstances, the Fund may include or exclude specific shares and/or other security types which are representative of a share in the Benchmark Index (such as depositary receipts). The Fund may also invest, up to 10%, in other funds to gain exposure to the Benchmark Index. Derivatives and stock lending may only be used for efficient portfolio management purposes. The Benchmark Index measures the performance of a sub-set of equity securities within the FTSE All-Share Index (the "Parent Index"). The Parent Index provides a representation of the returns of securities in the UK equity market by measuring the performance of shares of small, medium and large companies listed in the UK. The Benchmark Index excludes companies from the Parent Index based on the HIFML exclusions screening criteria in relation to controversial weapons, violations of United Nations Global Compact principles, Thermal Coal and Tar Sands as well as Tobacco.

Please note: the Scottish Widows unit-linked funds aim to provide long-term growth in the price of units. Any income generated will not be distributed, but added to the fund value.

The bond is designed for investors who:

- want potential capital growth or an income over the medium to long-term (at least 5 to 10 years).
- want to initially invest at least £10,000 or make additional payments of at least £1,000.
- accept their bond's value will fluctuate and they might not get back the full amount invested.

On death, we'll pay either 100% or 101% of the bond's value, depending on your age at the start of the bond (or 110% if death is caused by an accident). There is no additional cost for this cover. The bond has no fixed term and will continue until you ask us to cash it in, or you die.

What are the risks and what could I get in return?

The summary risk indicator is a guide to the level of risk of the Investment Bond investing in the SWIS UK Equity Tracker A Life Fund compared to other products and funds. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

The risk indicator assumes you keep the product for 10 years and that you remain invested in this Fund. If you change funds, the risk indicator may change.

1	2	3	4	5	6	7
Lower risk				Higher risk		

We have classified this Fund as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level.

The value of your investment, and any income from it, is not guaranteed and can go up and down depending on the performance of each of the assets in the Fund. This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment. However, you may benefit from a consumer protection scheme - see the section 'What happens if Scottish Widows Limited is unable to pay out'. The indicator shown above does not consider this protection.

Investment performance information

The value of the Fund's equity securities are significantly influenced by a range of economic and equity market performance factors such as economic growth, political, economic and international developments and market trends. The decisions taken by the Fund manager to select individual company securities and the resulting aggregate investments characteristics such as the Fund's style and sector exposures are also likely to have a material impact on performance.

The Fund aims to match as closely as possible the performance of the FTSE All-Share Custom Screened Index (the "Benchmark Index"), before deduction of fees, by investing in UK shares. The Fund aims to invest in shares of all of the companies within the Benchmark Index. This is often referred to as a 'full replication' approach. Where HIFML believes it can provide an advantage to the Fund in managing costs, to achieve a more efficient way of tracking the Benchmark Index, or where there are exceptional market circumstances, the Fund may include or exclude specific shares and/or other security types which are representative of a share in the Benchmark Index (such as depositary receipts).

What could affect my return positively?

The Fund is likely to achieve higher returns if conditions in overall equity markets are favourable. The Fund will achieve higher returns if the securities selected by the Fund's investment process provide positive returns over time and if these securities provide superior returns than the market average.

What could affect my return negatively?

The Fund is likely to achieve lower or negative returns if conditions in overall equity markets are unfavourable. The Fund will achieve lower returns if the securities selected by the Fund manager provide negative returns over time or if these securities provide an inferior return compared to the market average.

If you cash in your investment at a time of adverse market conditions, when values of equity investments are down, you could achieve lower than expected returns, including the possibility that you will make a loss on your investment.

What happens if Scottish Widows is unable to pay out?

Your Plan is fully covered by the Financial Services Compensation Scheme. More information about compensation arrangements is available from the Financial Services Compensation Scheme, who can be contacted on 0800 678 1100 or 0207 741 4100 or via their website at www.fscs.org.uk

What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. The monetary figures shown assume you invest £10000. The figures are estimates and may change in the future.

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Investment £10000			
Scenarios	If you cash in after 1 year	If you cash in after 5 years	If you cash in at 10 years
Total costs	£165	£730	£1748
Impact on return (RIY) per year	1.60%	1.16%	1.11%

What are the costs? (continued)

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and the meaning of the different cost categories.

This table shows the impact on return per year

One-off costs	Entry costs	0.05%	The impact of the costs you pay when entering your investment.
	Exit costs	N/A	The impact of the costs of exiting your investment when it matures.
Ongoing costs	Portfolio transaction costs	0.06%	The impact of the costs of us buying and selling underlying investments for the product.
	Other ongoing costs	1.00%	The impact of the costs that we take each year for managing your investments.
Incidental costs	Performance fees	N/A	There are no performance fees.
	Carried interests	N/A	There are no carried interests.

How long should I hold it and can I take money out early?

As the bond is a medium to long-term investment, it's designed to be held for at least five to ten years, but can be held for as long as you want. When you cash in, or if you switch between funds, there may be a delay of up to one month for this Fund. The value of your bond can go down as well as up and you could get back less than you invested, particularly if you cash in your bond in the short term.

You can make regular and one-off withdrawals. Withdrawals could be greater than any growth achieved and could reduce your bond's value below the amount invested. You should refer to the Additional Information Document for the conditions that apply and information on tax.

For new investments, you can change your mind within 30 days of when you receive your cancellation notice. You'll need to tell us in writing and we'll return your money less any fall in its value.

How can I complain?

If you ever need to complain, please contact our Customer Relations Department at:
Scottish Widows Limited, 69 Morrison Street, Edinburgh EH3 1HL
Telephone: 0800 592925. E-mail: CPDRTeam.IFABond@scottishwidows.co.uk

If you're not satisfied with our response you can complain to the Financial Ombudsman Service at:
Exchange Tower, London E14 9SR
Telephone: 0800 023 4567 or via their website at: www.financial-ombudsman.org.uk/contact/index.html
E-mail: complaint.info@financial-ombudsman.org.uk

Complaining to the Ombudsman won't affect your legal rights.
